EXPERIENCE

- Software Engineer at Kickdrum** Bangalore, India
Jan 2024 - Present
 - Working as **SDE2** after completing **In-Depth training as Winter Intern**
 - Delivered major **UI revamp & Performance upgrades** for **TestRail**, improving navigation speed by **30%**, reducing bottleneck query latency by **60%**, and upgrading **Jira integration** to secure **OAuth2 authentication**, enhancing enterprise security and seamless issue tracking.
 - Built a **Serverless SQL analytics pipeline** that parses **CloudWatch logs** and **RDS schemas** leveraging **AI** to identify implicit table relationships and generate **scalability reports**, optimized **token consumption by 45%** through intelligent **prompt engineering** and **metadata filtering**.
 - Implemented an **AI-driven Kubernetes co-pilot**, utilizing **GPT-4 LLM** and **Pinecone (Vector DB)** to implement a **RAG-based self-learning engine** that delivers **real-time incident reports** and actionable resource rightsizing reports that directly optimize **cluster efficiency** and **reduce cloud infrastructure spend**.
 - Optimized release workflows with **Jenkins CI/CD**, cutting cycle time by **40%** and enabling scalable, cloud-native deployments, while driving Agile practices through Jira management and automated build/testing pipelines.
- Product Engineering Intern at Sprinklr** Gurugram, India
May 2023 - June 2023
 - Worked on **Failure Alerting Mechanism and Risk Mitigation**
 - Built a real-time Failure Alerting Mechanism using **Springboot, Flask, and the ELK stack**, effectively enhancing log analysis and **System Reliability**.
 - Utilized a dataset of more than **10 million data points** with **30+ data fields** to train an analytical model, thereby increasing the accuracy of our analytical operations.
 - Executed various strategies for spotting unusual shifts in the system, stretching from **Statistical Algorithms** to **Machine Learning models** and up to complex **RNNs (Recurrent Neural Networks)**.
- Contest Coordinator & Programming Club Representative, DAIICT** Gandhinagar, India
Managed 5 Programming Sessions and Coordinated rated coding contest on CodeChef Jul 2021 - Aug 2022

ACHIEVEMENT

- Cleared **AWS Certified Solutions Architect (SAA-C03)**, validating skills in designing distributed cloud architectures & implementing secure and scalable AWS solutions.
- Solved **800+ Data Structures & Algorithm** based questions, including Leetcode, GeeksForGeeks, CodeChef, etc.
- Achieved **99.79 Percentile Rank (Top 0.2% out of 12,00,000+)** in Joint Entrance Exam (JEE) in Physics.

PROJECTS

- **StayConnect | Code (March 2022 - May 2022):**
 - Deployed a **Single-Point solution** to efficiently cater to all needs of the **Residential Management System**, including tasks like managing announcements, notices, and complaints pages.
 - Developed a web application using the **MERN stack**, incorporating principles of **ER-Diagrams, the Relational Model, and Normalization**, and adhered to the SDLC for **comprehensive testing**.
- **StopIt | Code (October 2022 - December 2022):**
 - StopIt is a **Chrome Extension** built with **JavaScript**, designed to bolster productivity by limiting access to specified websites, effectively managing online time.
 - Used **Storage and Tabs Chrome APIs** to block the flagged site using its URL, which is stored as User data.

EDUCATION

- **Dhirubhai Ambani Institute of Information and Communication Technology** Gandhinagar, India
Graduated June 2024
 - B.Tech- Information & Communication Technology**
 - Courses:** Data Structures and Algorithms, Object Oriented Programming, Design and Analysis of Algorithm, Database Management Systems, Distributed Systems, Computer Networks

SKILLS SUMMARY

- **Languages:** Java, JavaScript, TypeScript, Python, PHP, HTML5, CSS, SCSS, C, C++, MySQL
- **Tools and Technologies:** Amazon Web Services (AWS), ReactJS, Spring, Spring Boot, Kafka, Docker, Kubernetes, Node.js, Express.js, CodeIgnitor, MongoDB, Elasticsearch, Jenkins, Kibana, Git/GitHub, Jira, AI Agents, Microservices, System Design
